PD910
3 MP high-speed PTZ camera with 40x zoom, IR

DESCRIPTION

The PD910 is a 3-megapixel IP outdoor PTZ camera. A powerful high-grade 40x optical zoom lens ensures sharp and clear images over a wide range. Built-in IR for zero lux operation. The high-speed pan, tilt, and zoom mechanism and auto-focus give instantaneous and stable focused images. Due to its unique servo feedback control the camera will always maintain its original (PT) position. When forced away from its original position the camera will return immediately.

Description

The PD910 is a 3MP intelligent IP outdoor high-speed PTZ camera with built-in IR-illumination and 40x optical zoom. The absence of the dome-cover eliminates problems like optical distortion, IR scattering, or sun glare due to dirt or water on the bubble.

PT Servo feedback
The PD910 pan and tilt motors are controlled by servo feed back, keeping track of the PTZ position at all times. No more drifting PTZ head due to shocks, vibration or vandalism. When the head is forced from its position, it will return immediately.

Multi-stream high definition
The integrated camera has multi-stream capability for simultaneous streaming of H.265, H.264 or MJPEG. Up to 4 combinations of resolutions and frame rates can be configured to satisfy different live viewing and recording scenarios.

Open standards
Multiple options are available to easily integrate the PD910 to a video management system. In support of open standards, the PD910 is compliant with a range of VMS's, it supports ONVIF (Profiles S, G, and T) and the Siqura API.

Power source choices
The PD910 can be powered with 12 Vdc, 30 Vdc, 24 Vac or over the network with Hi-PoE sources. (802.3bt Type 3: max 60 W)
